Admission Process:

- A paragraph/essay
  - Do we need an essay?
  - Yes.
- Should everyone get in?
  - Not necessarily?
  - Is there a point to excluding anyone?
  - Anonymous essay reading - then we vote.
- **They write a paragraph - it needs to say more than "I've been in music for four years."**
  - **Then we read them anonymously and vote - we send Mr. Remy the 'yes' list and then he reviews them.**
  - Abduction ceremony - to Denny's?

"I wish Remy was here." -Kevin, 7:38

President/Cabinet:

- Should be an incoming Senior.
- Do it at the end of the year so that we can pass the torch and the new president can work alongside the old president.

Locker Situation:

- Some people share a big locker who could all just use small lockers.
- Start by look at what's needed.
  - Do a survey and find out who needs what space and who is okay.
  - Back Packs need a new home.

- **Let's do it on Monday.** Zak will make the announcement.
- Storage Closet - too full and too hard to get to the shelves.
- We need a basement.
  - "No, we don't have money." Treasurer Edgecomb

Incoming Freshmen Night:

- We need a crew of people running around and lassoing the freshmen.

"I had a nightmare about you [Lucas] last night...then I found this trombone concerto where you play two trombones at once." -Remy, 7:48

Pep Band:

- Scanning the books.
- Ben has it all figured out, he just needs to scan them.
- Just section leaders - but don't forget second parts!
- Ben might start with the trumpet for an example.
  - Then in the Spring, after show choir/jazz/one acts/etc., a crew of people will start helping.

Paul Simon:

- **Tarzan** needs to write a proposal for Mr. Rush.
